Duration: 6 months internship - PPO upon successful performance during internship

About Vivnovation:

We are one of the largest Multi-Disciplinary healthcare enterprise service providers in the US. Our teams are built to be as selective as we want you to be when picking your career and your life's work. We are not just marketers, clinicians, data analysts or scientists. We are Jack of all trades and master of all of them as we work on the principle of Continuous Innovation, Iteration and Intensity. But we can't do this without YOU!!! A curious, hardworking, well rounded graduate, ready to shake up the world rather than the world shaking you up.

Position Overview:

We are seeking dynamic and ambitious students to join our team Interns. This internship offers a unique opportunity for management students and healthcare enthusiasts to work on live projects across various teams within Vivnovation. As a Live Project Intern, you will have the chance to contribute to sales, product development, and other key initiatives while honing your skills and knowledge in a fast paced environment.

Responsibilities:

- Collaborate with different teams within Vivnovation to support ongoing projects and initiatives.
- Assist in research, data analysis, and project coordination for penetrating into whole US Market
- Learn through the training on a consistent basis and imply it towards the practical areas we need and collaborate with cross functional activities.
- Get a knowledge of having or setting up a business penetration by learning US healthcare along with constant innovation and iteration.
- Make sure, each client are proactively taken care of by all means in their services and have a high success in customer satisfaction.
- Align towards the monthly and quarterly goals designed by the team and the stakeholders and align towards achieving it.
- Have a cross functional nature to contribute into all the verticals of a business with an entrepreneurial mindset.
- Contribute ideas and insights to enhance project outcomes and achieve organizational goals.
- Participate in team meetings and brainstorming sessions to generate innovative solutions.
- Maintain accurate records and documentation of project progress and outcomes.

Requirements:

- Currently enrolled in a Engineering / Management program / pursuing healthcare related degree.
- Strong communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Proficiency in Microsoft Office suite and other relevant software.
- Reliable internet connection and availability during CST hours.
- Redy to do Multi Disciplinary role and not fixed to a specific role / path.

Benefits:

- Gain hands-on experience working on live projects in a dynamic healthcare environment.
- Opportunity to develop valuable skills and knowledge across different areas of the company.
- Exposure to industry leading practices and technologies.
- Letter of recommendation upon successful completion of the internship.
- PrePlacement Offer (PPO) with a starting salary of 20 LPA for top performing interns.
- Gain exposure and expertise in working with a diverse culture and customer base.

Interview Process:

1. Assessment
2. Video Pitching
3. Screening Round
4. Business Round
5. Management Round

Note: This is a remote role, and candidates must be available to work during CST hours.

Join us at Vivnovation and embark on a journey towards becoming a healthcare industry leader!
